- 1) WSU block rate is for the purchase of blocks of 2000 hours for the 400, 500 and 600 and blocks of 1000 hours for the 300. The block must be purchased in advance and unused portions are non-refundable.
- 2) Service spectra will be offered to researchers that are not approved to use the NMR Center equipment or for those researchers who want the NMR Center to obtain the data for them. These rates are in addition to the hourly rate for the instrument(s).
- 3) Set up charges for non-standard experiments or assistance with plotting of data.
- 4) Data analysis is defined as structural interpretation of NMR data or the work on pulse sequence design or simulation of data. Any and all data analysis that results in publication should include the NMR Center personnel involved as co-authors.
